RESOLUTE™
RACING SHELLS

Refurbishment Programs

RESOLUTE Racing Shells are incredibly well constructed from the finest designs and out of the finest materials. As a result, the duration of the competitive lifespan of our boats is ultimately limitless. Many are still winning races after eighteen years and more. That said, the wear and tear of frequent use can cause the cosmetic appearance of the boats to suffer over time, and hardware & other parts do require periodic restoration. To preserve the value of your investment, RESOLUTE offers the following programs to restore your high performance racing shell to like-new appearance and function:

How We Make Your Boat Look & Perform Like New	BRONZE		SILVER		GOLD
