

RESOLUTE™ RACING SHELLS

REFURBISHMENT

RESOLUTE Racing Shells are incredibly well constructed by design. Not only are our boats **built to go fast; they're built to last**. As a result, the competitive lifespan of our boats is unsurpassed. Many are still winning races after twenty years and more. While the performance value of our hulls is guaranteed with our industry-exclusive 7-year Hull Warranty, the wear and tear of frequent use can cause the cosmetic appearance of any boat to diminish over time. Hardware & other parts, especially those exposed to a saltwater environment, do require periodic replacement. To preserve the value of your investment, RESOLUTE offers the following programs to restore your high performance racing shell to like-new appearance and function.

NEW BOAT REFURBISHMENT PACKAGES
